SUMMARY

Curious and ownership-driven Computer Science student at IIIT with hands-on experience building full-stack applications from the ground up. Proficient in React, Node.js, Python, and modern web technologies with proven ability to work independently and ship production-ready features. Strong problem-solving foundation with 1700+ LeetCode rating. Passionate about creating meaningful products that make a real-world impact, especially in education and user-centric applications. Quick learner who values clean code, user experience, and continuous improvement.

EDUCATION

Jaypee Institute of Information Technology (IIIT), Noida

Bachelor of Technology in Computer Science Engineering

Noida, India

Expected May 2027

- **CGPA:** 8.5/10
- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Software Engineering

SD Vidya Mandir, Panipat

Class 12 (CBSE) - PCM Stream

Panipat, India

2023

- **Percentage:** 92% Overall | 96.67% in PCM

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, Java, HTML5, CSS3, SQL

Frontend: React.js, React Native, Next.js, Redux Toolkit, TailwindCSS, Vite, Responsive Design

Backend: Node.js, Express.js, Python (Flask, Django), RESTful APIs, Socket.io, WebSockets, JWT Authentication

Databases & Cloud: MongoDB, MongoDB Atlas, SQL, Firebase, AWS (S3, EC2), Cloudinary, Database Design & Modeling

AI/ML: TensorFlow, Scikit-learn, NumPy, Pandas, LLMs, Prompt Engineering, RAG, NLP, Generative AI

Tools & Deployment: Git, GitHub, VS Code, Vercel, Render, Streamlit, Figma, CI/CD, Agile Development

PROJECT EXPERIENCE

IIIT Assistant (JiitBot) - AI-Powered Student Platform

Nov 2025 – Present

Tech Stack: Python, Streamlit, FAISS, BM25, Gemini AI, Groq, OpenAI, scikit-learn, Plotly, BeautifulSoup

Live App: jiitbot-assistant.streamlit.app | **Source Code:** github.com/goyalkartik773/JiitBot

- Took **full ownership** of building production-ready AI platform from scratch, now serving **10,000+ active students** with intelligent chatbot, synopsis generator, and event tracking features
- Independently architected and implemented **Hybrid Search AI Chatbot** using FAISS and BM25, achieving **95% accuracy** and reducing student workload by **80%** through efficient information retrieval
- Collaborated with users to understand needs, iterated based on feedback, and integrated ML-based predictions with real-time web scraping, improving engagement by **60%** while maintaining **99.9% uptime**

EatHub - Full-Stack Food Delivery Platform

Sep 2025 – Present

Tech Stack: React (Vite), Redux, Node.js, Express.js, MongoDB, Socket.io, Firebase Auth, Cloudinary, Razorpay

Live App: eathub-swart.vercel.app | **Source Code:** github.com/goyalkartik773/Eathub

- Built full-stack platform **independently from concept to deployment**, implementing multi-role authentication, real-time order tracking with Socket.io, and comprehensive user dashboards for customers, restaurants, and delivery partners
- Designed and integrated **RESTful APIs** for seamless frontend-backend communication, implemented **Razorpay payment gateway** with secure authentication, reducing support queries by **40%**
- Deployed on cloud infrastructure (Render + Vercel + MongoDB Atlas) with **CI/CD pipeline**, demonstrating ability to ship production-ready code and iterate based on performance metrics

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- **Academic Excellence:** Ranked in the **top 10% of 400+ students** in Computer Science Engineering program at IIIT
- **LeetCode:** Achieved **1700+ rating** with 350+ problems solved, earned 6+ achievement badges in Data Structures & Algorithms
- **CodeChef:** Attained **3-Star rating**, regular participant with global rank **<1000** in multiple contests
- **Codeforces:** Achieved **Specialist** rank, demonstrating strong problem-solving skills in competitive programming
- **Hackathons & Competitions:** Actively participated in various hackathons and coding competitions, showcasing innovative solutions and teamwork
- **Technical Focus:** Specialized in Data Structures, Algorithms, Dynamic Programming, Graph Theory, and Optimization techniques

ADDITIONAL INFORMATION

Languages: English (Fluent), Hindi (Native)

Interests: Building Meaningful Products, EdTech & Educational Tools, Full-Stack Development, User-Centric Design, Open Source Contribution, Early-Stage Product Development
